# INTRODUCTION

---

HILL DIRECTORY CO., INC., publishers of the Greensboro City Directory, present to subscribers and the general public, this, the 1928 edition of the Greensboro Directory.

Confidence in the growth of Greensboro, in its wealth, industry and population, as well as in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for, truly, the directory is a mirror reflecting Greensboro to the world.

The enviable place occupied by HILL'S directories in offices, stores, libraries and homes, causes the publishers to forecast the belief that the Greensboro Directory will fulfill its mission as a source of authentic information of any and every kind pertaining to our city. With an unrivaled organization, having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user.

## Population

The estimated population of Greensboro is 57,656, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

## Four Major Departments

The several essential departments are arranged in the following order:—

THE BUYERS' GUIDE, pages 25 to 92, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Greensboro. These pages will be found particularly interesting and instructive to the substantial elements of the city. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers keen to prime themselves on sources of supply. The city's activities, in many interesting phases, are authentically pictured to reveal what it has in its show window. In an ambitious and progressive community like Greensboro, the necessity of having this kind of information immediately available, is very great and, frequently, pressing. General appreciation of this fact is evidenced by the liberal patronage the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporation is included in pages 93 to 579. A feature of this section is the inclusion of the wife's name in parenthesis following that of the husband. Colored people are designated by the character "(c)".

THE STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS covers pages 581 to 724. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 725 to 788. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such is plays no

small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

### **Municipal Publicity**

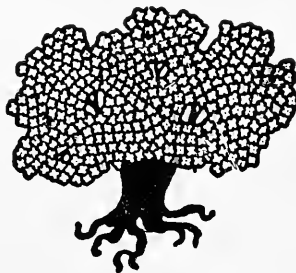

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information over the country, the publishers have placed copies of this issue of the directory in Directory Libraries, which are maintained in all the chief cities of the country. Here they are readily available for free public reference and serve as perpetual advertisements of Greensboro, for business men, the country over, realize that the city directory represents the community as it really is.

### **The Greensboro Directory Library**

Through the courtesy of the publishers of the Greensboro City Directory, a Directory Library is maintained in the offices of the Greensboro Chamber of Commerce, for free reference by the general public. This library is one of the system of more than 400, installed and operated in the chief cities of the United States and Canada, under the supervision of the Association of North American Directory Publishers, of which Hill Directory Co., Inc., are members.

The publishers appreciatively acknowledge the patronage of those progressive business and professional men who have expressed their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., INC.,  
Publishers.

## STATISTICAL INFORMATION

Slogan—"The Pivot of the Piedmont".

Form of Government—City Manager-Council.

Population—57,656. Native white, 79%; Negroes, 21%. Native-born population, 98% of whole population.

Area—17 square miles.

Altitude—843 feet.

Assessed Valuation—\$103,000,000.

Parks—4, with 1,054 acres valued at \$3,000,000.

City's Bonded Debt—\$5,351,177.53.

Financial—3 banks, with total deposits of \$28,442,208, resources \$34,778,767, and clearings of \$312,000,000 annually. Savings banks, 3, with \$1,406,487 total deposits.

Post-Office Receipts (1927)—\$463,744.

Telephones in Service—8,900.

Churches—52, leading denominations.

Building and Construction—Value of building permits, \$4,837,830, with 395 new dwelling units constructed this year.

Real Estate—Number of homes, 12,100, with about 75% owned by occupants.

Industry—125 establishments, employing 8,700 people, paying wages of \$12,000,000 annually, and having products valued at \$47,500,000 annually.

Trade—Territory (retail) serves 600,000 people within the trading area covering a radius of 50 miles. Jobbing territory serves 790,000 people within a radius of 75 miles.

Newspapers—2 dailies.

Hotels—8, with total of 900 rooms. Newest hotel built in 1927.

Railroads—3: Southern, A. C. L. and N. & S.

Amusements—Largest auditorium seats 1,900 persons. There are 8 theatres, with a total seating capacity of 6,000 persons.

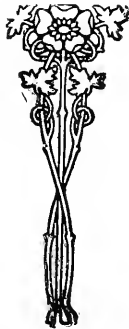

Hospitals—8, with 400 beds.

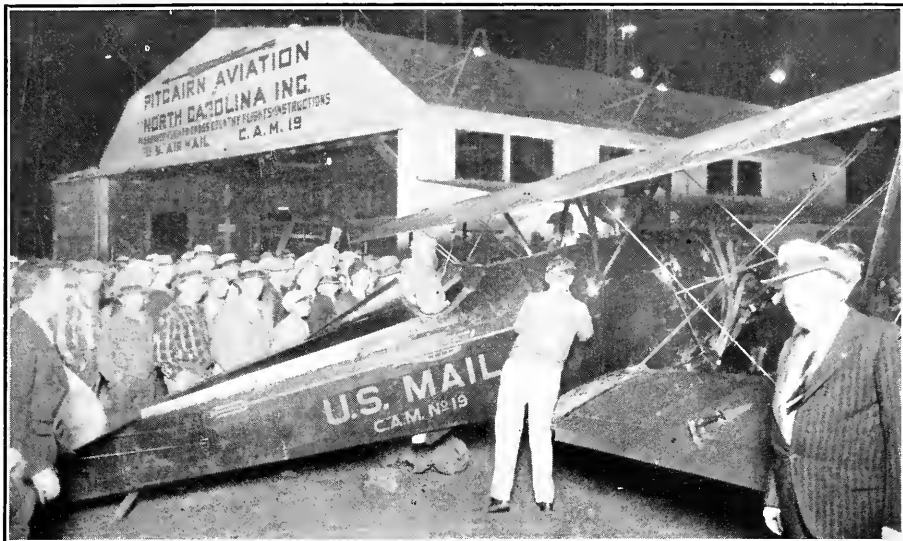

Education—North Carolina College for Women, Greensboro College,

Agricultural and Technical College, Bennett College, Immanuel Lutheran College, King's Business College, Peele College of Commerce and Greensboro Business School. Number of preparatory schools, 24, including 2 high and 2 parochial. Number of pupils in public schools, 9,221; in private, 150. Total of all teachers, 375. Value of all school property, private and public, approximately \$3,000,000.

Volumes in Libraries—136,000.

City Statistics—Total street mileage, 270, with 135 miles paved and 15 miles under construction. Miles of gas mains laid, 96; of sewers, 130, and of electric street railway, 16. Capacity of water works (municipal), 28,000,000 gallons; daily average pump, 4,000,000 gallons, with plant valued at \$2,750,000. Fire department employs 50 men, with following equipment: 2 autos, 7 engines, 1 hose and chemical wagon and 1 hook and ladder truck, in 5 station houses. Value of fire department with property, \$350,000. Police department has 53 men, with 1 station and 11 pieces of motor equipment.

The First Regular Northbound Mail Plane At the Greensboro Airport on the Night of May 1, 1928, when the New York-New Orleans Service was begun.

# Greensboro

## *Some Notable Events of the Year in Greensboro*

Establishment of a modern airport and the opening of air mail service with Greensboro as one of the regular stops on the New York-New Orleans line.

Complete modernization of fire protection and water supply, the lowering of fire insurance rates, and the winning of the prize awarded by the United States Chamber of Commerce for first place among cities of 50,000 to 100,000 population in the Inter Chamber Fire Waste contest.

Initiation of a city-wide plan for the elimination of grade crossings of railroads

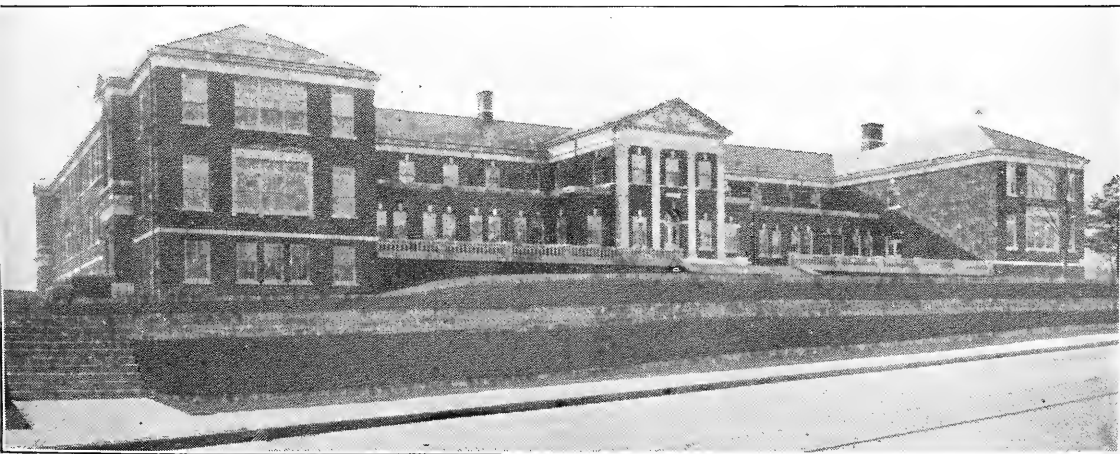

and the vigorous execution of this \$2,000,000 project.

Adoption of a modern building code.

The continuation of a progressive program of street widening and improvement.

The initiation of a \$2,000,000 program of improvement in the public schools of the city. The extension of the school district to include most of the metropolitan area.

Appropriation secured for a new post-office and federal building and the way cleared for its immediate construction.

The Curry Building at North Carolina College for Women, Home of the School of Education and of the Training School.

The Statue of General Nathaniel Greene at the Battleground of Guilford Court House.

## Greensboro Today and Yesterday

Greensboro was incorporated in 1808 and the act of incorporation was the first significant event in her history, for there was only open country on the site until the county commissioners paid Ralph Gorrell \$98 for 48 acres on which a new seat for Guilford county's capital was laid off, the court house in the center.

Before that time the county seat of Guilford, since the county was established in 1770, was at Martinsville, five miles to the north of Greensboro. The old court house site was the scene of the historic battle between the Continentals of General Nathaniel Greene on one side and the British Red Coats of Lord Cornwallis on the other. The new county seat was named in honor of the great American military leader.

Even in those early days Greensboro's central position in the state was the chief factor in her growth and it remains so until today. Here the main highways of the young state converged on the tiny village which sprang up around the crossroads and as the state grew stronger so Greensboro grew. Its history was uneventful for long years. The first railroad came in 1856 and a second in Civil war days. Greensboro had only a few thousand people but she gave her share of men and supplies to the southern cause and she felt in full the exhausting poverty in men and resources which killed all chance for growth in the days of reconstruction.

It was genuine reconstruction, however, and there was the gradual accumulation of a reserve of new power. The opening of a new century found the city ready for its flowering. In the '90s came the Cones and after them the other industrial and business leaders which have transformed the trading settlement into the modern city. Greensboro remains the most centrally located city in North Carolina and that position is a dominant influence on her manufacture as well as her trade. Her destiny has always been peculiarly that of the state and North Carolina's amazing advances of recent years have been directly reflected in Greensboro. She is the meeting point for people, for raw materials, for communication and for finished products.

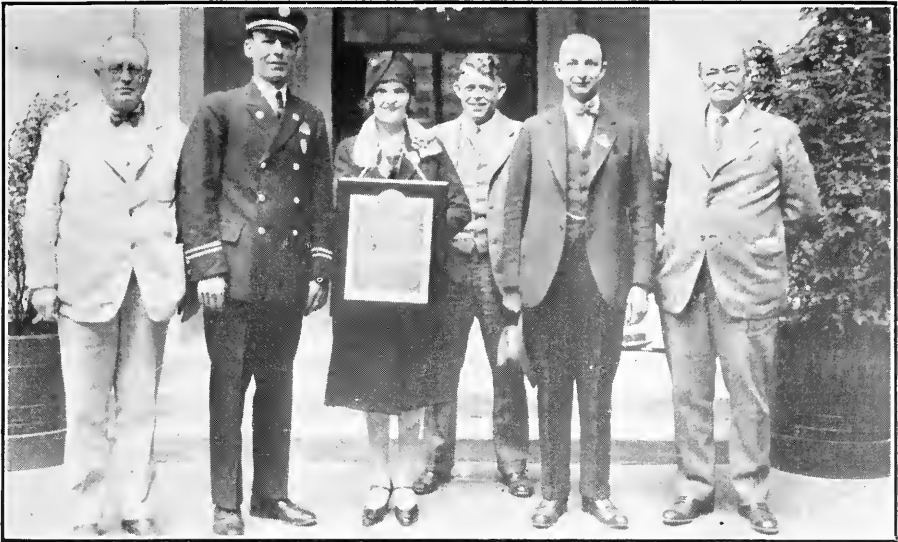

Other factors are playing powerfully for her advancement. Her back-country is a region of rich and diversified agriculture and one which is rapidly showing further improvement. The entire region is thickly dotted with industrial communities which look to Greensboro as the central point for supplies and materials. Raw materials essential in major lines of manufacture are at her doors, cotton, hardwoods, clay products, stone, wood pulp and the like. Native-born labor, intelligent, loyal and easily trained is present in abundance. Electric power at reasonable rates and in any desired amount is to be had. One of the chief factors is a progressive city and county government with a friendly attitude and a fair one. Climatic conditions are as advantageous as can be found in the entire country. Neither excessive winter cold nor summer heat is experienced and the year-round a pleasing, equable weather is experienced. The average temperature is 59 degrees Fahrenheit, the average rainfall 46 inches.

Greensboro lies at the center of the north section of the Piedmont, that great new kingdom of industry and business which runs through the middle of the South Atlantic states. She lies equally distant from New York and Atlanta, about 12 hours by train from each. She lies equally distant from the ocean on the east and the Carolina mountain border on the west.

## Pivot of the Piedmont

Greensboro, "The Gate City" of the Piedmont in other years is now "The Pivot of the Piedmont", a focal point for the northern part of that great new kingdom of industry, commerce and agriculture. Accepting the title in all due modesty, the city is seeking to offer its very best facilities in the public service owed by her on account of her unique position. A review of her service institutions reveals them to be the equal of any in the country.

The city water department has an average daily pump of around 4,000,000 gallons, this coming from a billion-gallon reserve on Reedy Fork creek and coming through a completely modernized plant from pumping station to water meter. Recent installations afford a maximum daily pumping capacity

The Greensboro Group Which Received at Washington The Award for the City's Victory in Winning a First Place in the National Fire Waste Contest.

of 28,000,000. This reserve strength together with a splendid fire department, affords the last word in fire protection. The quality of water supply and fire protection was the chief factor in the city's securing last year lowered fire insurance rates and also in her winning the national fire waste prize for cities from 50,000 to 100,000 population, as awarded by the U. S. Chamber of Commerce.

Electric light and power current and gas are supplied by the North Carolina Public Service Company, owned by the Duke interests. They also operate the street railway lines on 16 miles of track. The city is on a direct line of the Southern Power Company, owned by the Duke interests.

One of the city's greatest advantages is in its transportation facilities. Through a new \$1,000,000 station of the Southern Railway, 48 trains arrive and depart daily to handle the greatest volume of traffic through any Carolina city. From a new bus station, 68 busses arrive and depart each day, affording direct service to every part of the state and section. Adjoining the passenger station is the modern home of the Southeastern Express company. The city is as important in freight distribution as in passenger service and recent enlargements give Greensboro one of the largest and best arranged freight yards in the south.

Greensboro offers the best mail service that can be given. At the rail crossroads of the state direct access is given in every direction. Last year postal receipts vaulted to a new high figure of \$463,774 and bid fair to go over \$500,000 in 1928. The choice of the city as the sole air mail stop in North Carolina on the New York-New Orleans line brings the final advantage in mail service. Air mail service was begun on May 1, 1928, and from the first won heavy support. Congress has appropriated funds for a \$1,000,000 postoffice.

One of the city's chief distinctions is in educational facilities. Through an expenditure of \$2,000,000 one of the nation's finest high schools, two junior high schools, three new grammar schools, a negro high school and sites for a grammar school and a junior college are being provided to modernize the public school system and make its physical equipment adequate for years. Quality of instruction is such that the city ranks first in the rating of the state authorities.

Two colleges for white women, three business colleges and three colleges for negro students round out the educational system. In North Carolina College for Women, with 1,700 students, the city has one of the nation's leading institutions of the kind.

The city's entire area of 17 square miles is in gently rolling country admirably suited for residential and park development. This has contributed largely to a charm of home development not to be easily matched. The city leads all North Carolina cities in the percentage of homes owned by the occupants. Due to its importance as a nursery and flower growing center, it is the most attractively planted city. Park areas in public and school lands aggregate over 1,000 acres and development is underway to provide ideal grounds for recreation.

## Consuming Power

Her commanding place of influence has made Greensboro a city of amazing powers of consumption. Through the demands of her population of over 50,000 persons, the rich agricultural region around her is being developed and trucking and dairying have become leading factors in the life of Guil-

ford county. This consumptive power is increased through the creameries, condensing plants and distribution houses which forward products to other sections. A baking center, the city draws in a tremendous quantity of flour and other products for distribution through the state.

A building activity running from \$1,000,000 to \$6,000,000 a year is the heaviest factor in the consumption of lumber, although sawmills and furniture factories take an important place also.

The wide use of electric power has lowered consumption of coal for industrial purposes, but the city remains a center of consumption and distribution of the product.

Greensboro cotton merchants handle hundreds of thousands of bales of the staple each year, her cotton mills consume them and her garment factories use the manufactured materials. Silk and cotton hosiery and webbing plants, iron and steel working plants, automobile body factories and others contribute to the enormous demands the city makes for the materials out of which it fashions its life and its products.

In manufactured products the city's consuming power is greater than would be expected from a municipality of like size. This is due to the wideness of the trading area, as one factor. Another is the freedom with which Greensboro people buy. A student population of over 5000 in or near the city adds \$2,000,000 or more each year to the consumptive powers of Greensboro.

A Greensboro Skyscraper Housing One of the Leading Banks of the City, and the Largest Insurance Company.

## Industrial Leadership

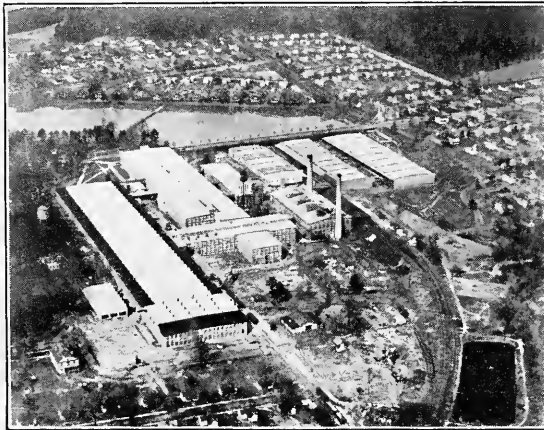

Greensboro has 125 industrial plants, affording employment to 8700 persons, an annual payroll of \$12,000,000 and making goods worth \$47,500,000 each year. The largest single industry is that of the Cones, holding world leadership in denim manufacture, and also makers of flannels and other fabrics. The Blue Bell Overall Company is the largest of the garment making plants, one of the largest overall mills in the world. Other lines in which leadership is held are in steel and iron fabrication, clay products, croup salve, automobile bodies, silk hosiery, elastic webbing, lumber products, fertilizers, dairy products, ice manufacture, laundry machinery, wood-working machinery, foundry products, silk and cotton spinning, cotton hosiery, stoves and others.

The city is so built that advantageous industrial sites are numerous and can be reasonably secured, with adjoining railroad

ent on one line of manufacture alone. For that reason the community is immune from those periods of business depression which may hit any community with a majority of its workmen employed in one line of work. There are many factors of advantage and all have worked together to attract to Greensboro various types of manufacture. They will continue to do so, and in her well-rounded industrial development the city sees one of her greatest advantages.

## Financial Strength

At the head of Greensboro's financial institutions is the city government itself, a modern government of the city manager-council type administered by some of the ablest men in the citizenship. Since this business administration began some eight years ago, the rating of the city has advanced to the very top. With a total valuation of \$103,000,000 the net debt of the city is but \$5,351,177 and this in spite of the

The World's Largest Denim Mill, Located in Greensboro.

trackage or highways. There is a plentiful supply of native white labor, easily trained and intensely loyal. Greensboro's position as a center of distribution and her wealth of labor, trained and untrained, afford a striking opportunity in nearly every line of manufacture. The presence at her door of cotton, hard and soft lumbers, the best of working clays and other raw materials suggests the lines in which an immediate advantage exists. Not only is the city ideal for the manufacture of cotton and silk products, furniture and other lines, but her place in the center of the southern furniture making and cotton manufacturing area gives her the best of advantages as a point for the manufacture of all kinds of mill equipment, hardware and machinery.

Power is abundant and at reasonable rates. Transportation facilities are not surpassed in the Carolinas.

All these factors have combined to diversify the industry of Greensboro as they have developed it. The city is not depend-

fact that recent years have brought a program of improvement which few municipalities of the size can equal. There is no guesswork about the city's finances but everything is conducted along the strictest lines of business practice. Contracts for public work, for bond sales, or for the borrowing of money are let only after due advertisement and on submission of sealed bids.

Greensboro has a solid and progressive banking business with three commercial banks and three industrial banks with total resources of \$37,805,826 and with saving deposits of over \$28,000,000. Clearing house debits for 1927 totaled \$312,500,000. Three building and loan associations are in prosperous condition.

A chief asset in the business and financial life of the city is in her insurance business. Five home life insurance companies in 1927 had a premium income of \$14,500,000 and \$435,000,000 insurance in force, four home fire insurance companies had assets of over \$3,500,000 and over \$200,000,000 insurance in force.

## Retail Trade

Greensboro has always been an important point of retail trade since her location over 100 years ago at the main crossroads in North Carolina. The state's magnificent program of road construction, aided by a comprehensive road program of the county, has placed the city at the center of a veritable network of paved and improved highways. The city's retail dominance extends from 30 to 75 miles from her limits and she is the chief dependence of some 600,000 persons living in that area. This means that all lines of retail trade are well developed. The city has particular strength in automobiles, hardware, clothing, shoes, drugs and furniture.

The quality of goods handled is above the average since the city has never catered

hardware distribution. In drugs she is almost as favored, while in the various other lines ~~strag~~ houses are represented. Particular strength is shown in the distribution of produce and food products, tobacco, bread products, candies, dry goods, clothing and the like.

The city has an abundant supply of modern office rooms at reasonable rents and this fact together with the advantages of position is inducing the location here of more and more of the state and district offices representing national concerns.

## Civics and Welfare

In her material advancement, Greensboro has not lost sight of moral and civic virtues. There are over 50 churches in the city, each of them the home of a growing

One of the Leading Hotels in Greensboro.

to the cheaper class of merchandise peculiar to communities where wages are uniformly low.

Chief instrumentalities in maintaining high standards of life and business in the area are the newspapers, two dailies and a number of weekly publications. The Greensboro Daily News is one of the most powerful organs in North Carolina with a circulation close to 40,000 and with an authoritative editorial and news voice in the morning field. The Daily Record is a rapidly-growing and popular afternoon daily.

## Wholesale Trade

Greensboro's importance as a wholesale and jobbing center extends far beyond the bounds of her retail area. This is due to her favored position in transportation and mail communication. Some 2,000 traveling men make their homes in Greensboro and a great many of them are traveling from state or district offices or plants located in this city.

Greensboro holds the dominant place in the state and into neighboring states in

congregation. The ministerial group is a very progressive one. Modern buildings house the Y. M. C. A. and the Y. W. C. A.

In civic organizations, the city is well developed with a smoothly-functioning community chest, caring for the upkeep of welfare work, and various other activities. The chamber of commerce and the merchants association are both active and progressive. The various civic clubs are strongly represented. Greensboro has a civic music association, an open forum and various other organizations which devote themselves to a constant educational and cultural effort.

Four regular hospitals provide a total of over 300 beds while a number of other private institutions offer at least 100 more. The medical profession and dental profession are strongly represented. The city health department is one of the most progressive in the nation and is particularly forward on educational and prevention work in the schools. Operated along with the department is a nursing corps of 12 nurses for public service.

## Greensboro, The Center

Greensboro has won a name for herself as the chief center in North Carolina in various fields. She is the insurance center of the state and one of the insurance centers of the south. The city is the state's chief cotton merchandising city. She is one of the cotton manufacturing centers of the south. As a convention city she ranks high in the state due to her eight hotels with a total of over 900 rooms. These are also a factor in her leadership as a home of traveling men and as the center for state offices and distribution houses.

Choice location and admirable roads have made Greensboro the focal point in the heavy tourist traffic between north and south and at all times of the year on her streets may be seen cars from all the states. Greensboro is also a convention city with some 25,000 delegates attending sessions here each year.

One of the city's most important points of leadership is in educational facilities with the highest ranking public school system in the state and with five colleges in the front ranks of institutions of their kind.

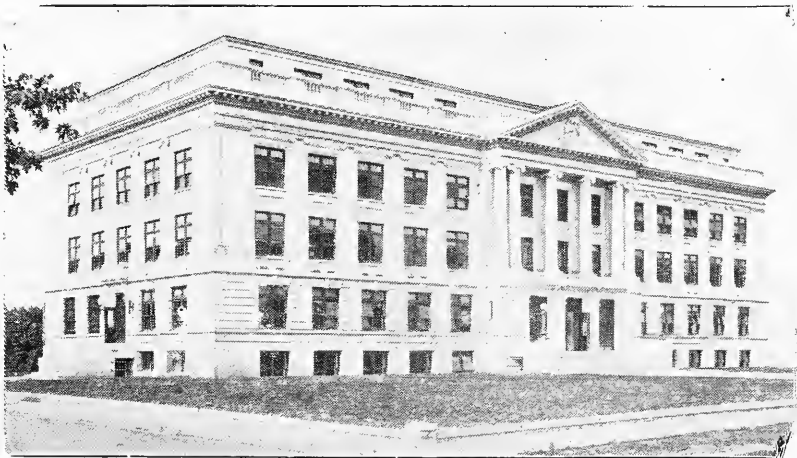

Another important point in her leadership is in climatic conditions with perhaps the most agreeable and constant conditions to be found in the Piedmont region, itself the most signally-blessed section of the country in that respect.

Again Greensboro is a center in sport activities due largely to her possession of a World War Memorial stadium which attracts many of the major college athletic events of the sections and also the leading interscholastic contests. The stadium seats 9,200 persons and is equipped with the most modern fields for football, baseball, track, tennis and other sports. The stadium was completed in the spring of 1927. It was erected with \$150,000 donated by citizens of city and county as a memorial to the men who died in service in the World War.

## Chamber of Commerce Service

With a membership of around 1,000 and with the support of the best element in Greensboro's citizenship the Chamber of Commerce is active in service of both residents and visitors. Bascom T. Baynes is president for 1928 and James A. Gawthrop is secretary. The various departments and bureaus of the organizations are actively functioning.

As one of its chief functions, the Chamber of Commerce is engaged in supplying accurate and detailed information and data on any phase of the city's civic, industrial or commercial life. Inquiries of any kind will be carefully considered and promptly answered. For the convenience of those seeking information a series of leaflets and bulletins has been printed giving the facts in the various fields of activity.

The New Guilford County Court House of Greensboro, One of the Finest Public Buildings in North Carolina.

# The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

¶ It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

¶ It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

¶ The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

¶ Its Classified Business section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

## INSURANCE

### *LIFE INSURANCE WHICH MEETS MODERN REQUIREMENTS*

**T**HE Bankers National Life Insurance Company, an old-line, Legal Reserve Company, has been organized along lines which promise maximum returns and service to policyholders.

If you need life insurance as a protective measure in your business—to help educate your children—to pay off a loan—to provide your family with an income in case of death—the BANKERS NATIONAL LIFE offers you a policy contract of remarkably low cost and flexibility.

AGENTS WANTED—A very liberal proposition offered capable men.

## REAL ESTATE

# "UNDER ALL, THE LAND"

The important matter for consideration in Commercial, Industrial, Residential and Agricultural Financing is a Correct Appraisal

The underlying principles of value are not always easy to determine.

It takes hours of study, backed up by years of experience, to make a Correct Appraisal.

We have spent a great amount of time for the past ten years in a special study of the principles that make value. Our service as Appraisers is based on these years of experience and study.

# Advertising Greensboro

---

Do you know that a copy of this Directory of Greensboro is being placed in the Directory libraries and among the commercial bodies, Business Men's Clubs, Chambers of Commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

The publishers are doing everything possible to make this Directory a representative city catalog of Greensboro. Are you as prominently represented as you should be?

GREENSBORO HOUSEHOLDERS DIRECTORY (1928)

581

**HILL'S**  
**GREENSBORO**  
**STREET AND AVENUE GUIDE**  
 AND  
**DIRECTORY OF HOUSEHOLDERS**  
**1928**

Copyright, 1928, by Hill Directory Co., Inc.

In the following list the streets are arranged in alphabetical order, the numerically named streets follow immediately the named streets in numerical order without regard to geographical location, then the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupant or householder. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession, business, etc., of individuals and firms are only given at their respective place of business, to find occupation of householders, refer to Alphabetical List of Names.

# This Publication Is The Product of A Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

## Association of North American Directory Publishers

524 Broadway

# Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

**Advertising** is the foundation upon which successful businesses are built. You must apply this to your own particular business.

**Advertising** is the power of an idea multiplied.
